

Summit Preparatory Charter High School Accountability Report Card Reported Using Data from the 2018-19 School Year Published During 2019-20

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2019-20)

Our Mission:

To prepare a diverse student population for success in a 4-year university and to be thoughtful, contributing members of society.

Our Core Characteristics:

All students and teachers are expected to embody the six core characteristics: respect, responsibility, compassion, curiosity, courage, and integrity.

Academic Program

Every student completes a college-prep course of study that is aligned to the Common Core Standards, and prepares all students for AP classes beginning their junior year. 100% of Summit graduates meet or exceed UC/CSU entrance requirements; 100% of Summit seniors take the SAT or ACT exam and at least two AP exams.

We focus on the four elements that are the foundation of college and career success in the 21st century:

- Cognitive Skills – The deeper learning, critical thinking, communication and problem-solving skills needed to succeed in today and tomorrow’s workforce
- Content Knowledge – Engaging in learning that is personalized for each student, filling learning gaps and moving students towards competency in all subject-areas.
- Habits of Success – Empowering students to self-direct their learning and develop the habits that are invaluable for college and life success
- Expedition – immersing in real-world experiences to discover and explore passions and careers, applying learning in authentic ways.

Personalized Learning and Mentoring Program

Every Summit student has a Personalized Learning Plan (PLP), where students set learning and personal growth goals and track progress. The PLP is designed to be a dynamic tool where families and teachers alike can offer support and coaching.

Summit students have mentors who individually support them through their goals. Mentors serve as college counselors, coaches, family liaisons and advocates, ensuring their mentees are excelling inside and outside of the classroom every day.

Our Faculty:

Our teachers are highly motivated, academically accomplished, innovative and creative. At Summit, teachers participate in approximately 40 days of professional development each year, during which they work together to ensure students are always receiving the highest quality education.

Extra-Curricular Activities

Participation in extra-curricular activities is essential to developing a well-rounded, college and career-ready student. Summit focuses on developing happy, healthy students who have a well-balanced lifestyle that mixes academic classes with personal passions and enjoyable extra-curriculars.

Teaching and Assessment:

Summit uses research-based instructional methods and leverages technology in all subjects. Students are immersed in project-based learning and learn content and skills by developing solutions to engaging, real-world problems. Instruction is rigorous for all students, regardless of previous preparation, and curriculum is differentiated to provide a personal pathway to success.

Assessment

Summit students demonstrate competency of content knowledge and cognitive skills compared to state, national, and collegiate standards. Culminating projects are used to assess the college-ready content knowledge and critical thinking skills. Letter grades are assigned for coursework and are consistent with state and college measures. Students take all state standardized exams, Advanced Placement Tests, and the ACT and SAT.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

School Facility Conditions and Planned Improvements (Most Recent Year)

"Summit Preparatory is located at 890 Broadway Street in Redwood City in a re-designed industrial building. The campus is comprised of student classrooms, a multipurpose room (lunch, all school meetings, independent learning time), teacher and administrative offices and common areas, a student and faculty parking garage, two student computer areas, as well as an outdoor park and eating area. This park was designed and built on the North side of the school for the 2008-09 school year. The area has benches for students to eat lunch, a basketball court, and a grass area.

Each classroom is equipped with an LCD projector and the entire building is equipped for wireless internet. There is a separate student and teacher network. All teachers have school laptops, and all students have access to computers and laptops.

The building is alarmed and the garage door is gated and alarmed once students safely arrive. Additionally, there is a front door camera/buzzer system in place to ensure security over who enters the high school.

The facilities used by Summit Preparatory Charter High School are provided by the Sequoia Union High School District in fulfillment of the district's Proposition 39 obligations. The district is responsible for major maintenance and code compliance of the facilities. The facilities are well maintained and in good condition and are adequate for the delivery of the SPS instructional program. SPCHS contracts directly for custodial services and the facilities are cleaned on a daily basis."

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students

Grades Three through Eight and Grade Eleven

Percentage of Students Meeting or Exceeding the State Standard

Subject	School 2017-18	School 2018-19	District 2017-18	District 2018-19	State 2017-18	State 2018-19
English Language Arts/Literacy (grades 3-8 and 11)	78	68	62	68	50	50
Mathematics (grades 3-8 and 11)	40	32	45	49	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site.

Opportunities for Parental Involvement (School Year 2019-20)

Summit recognizes that students learn best when parents are involved in their learning and their learning community. Almost all current research indicates that parental involvement is the single most important ingredient to student success after socioeconomic status. Accordingly, SPCHS actively reaches out to parents to encourage them to be involved in the school in many ways. The Summit Parent Organization Team ("SPOT") is responsible for coordinating Summit Prep volunteer needs and activities, and recording volunteer participation. The SPOT management team strives to match school needs with the interests and schedules of each family and values input from the entire Summit community.

Parents are encouraged to contribute 30 hours of volunteer time in the above categories, some examples being:

- Helping on the school community day
- Helping to serve lunch
- Helping to do data entry, mailings, community outreach
- Helping with Open Houses
- Helping with the college process
- Helping with athletics

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates; and
- High school graduation rates.

Dropout Rate and Graduation Rate (Four-Year Cohort Rate)

Indicator	School 2015-16	School 2016-17	School 2017-18	District 2015-16	District 2016-17	District 2017-18	State 2015-16	State 2016-17	State 2017-18

School Safety Plan (School Year 2019-20)

Summit Preparatory Charter High School has worked hard to ensure the School Safety Plan meets or exceeds safety standards. There is a designated team on site to review and monitor the safety plan periodically. The Plan includes but is not limited to Emergency Safety Drills, building inspections and safety training for staff members. All staff and students participate in training to ensure familiarity with emergency procedures.

The School also complies with the Education Code requirement that each new employee be fingerprinted for the purpose of obtaining a criminal background check as a condition of employment. SPCHS follows standard health and safety practices as required by State and local law .

All visitors to the school are required to sign in and indicate the purpose of their visit. No unauthorized visitors are allowed on the campus. The School practices close communication with parents, such as calling home when a student is sick or in the case of a medical emergency to ensure the health and safety of the student body.

The California Department of Education issued guidance to LEAs on August 1, 2018, regarding how to calculate school-level per-pupil expenditures that will be reported on 2018-19 report cards.

Types of Services Funded (Fiscal Year 2018-19)

At Summit Preparatory Charter High School, we have many different types of programs and services available at the school that support and assist students.

Those are:

Office Hours - after school, there are about 6 hours per week where students can come get support from their teachers and peers outside of the regular school day. During these office hours, teachers are available to support students in their learning of content, practice on skills they haven't mastered yet, or to get work done in a quiet and safe place.

Summit Reads - during the school day, we also offer times where students can get support in their reading. There is a dedicated time every week when students are required to read, and we use data to decide what level of support students need in their reading. Students who are reading at grade level are simply required to read for that time. Students reading below grade level use a reading remediation program to support them in actually learning the skills necessary to get back to grade level. And students who are far below grade level in their reading have small, teacher-driven reading remediation to learn remedial reading skills.

Summit Solves - similarly to Summit Reads, during the school day, we offer times where students can get support in their numeracy. This is a dedicated time every week when students are required to work on math, and we use data to decide what level of support students need in their numeracy. Students who are at grade level with their numeracy are simply required to do math problems at their grade level for this time. Students who are below grade level are doing math at their math level, and students who are far below grade level have small, teacher-driven numeracy remediation to learn remedial mathematics skills.

Peer tutoring - during the day, as well as after school, we also have times where students support other students academically. The peer tutoring club is something driven by students, and is used widely by students to get help on content or skills for their courses.

Mentor Check ins - every student, every week, has an extended check in with their mentor. During this check in, mentors use this as an opportunity to support students in goal-setting, making plans, advocating for them, and how to improve their learning habits. This is a structured time where mentors can get at the root causes of why students need support.

Data - we also have a dedicated time for teachers to look at achievement data and meet in teams to dissect and make plans for students who need support. Every week, there is a time for data to be looked at to help students make plans, identify students who need more targeted support, and to see which students need to be more challenged.

Professional Development (Most Recent Three Years)

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement	40	40	40

Summit Prep believes that it is possible to attract and retain talented teachers by sharing a dynamic vision committed to excellence and creating a professional learning environment where staff can learn and grow along with our students. To this end, Summit Prep invests heavily in professional development for our staff. Annually, teachers engage in approximately 40 days of paid professional development sessions designed and led by the faculty in one to two week chunks throughout the school year. These days occur when our students are participating in their elective courses and community outreach programs. We also offer paid, professional development opportunities for our faculty during the summer as part of our “Summer Fellows” program.

Every individual has a two hour block of time per day to plan individually or to work with other department members for collaborative planning. Each week, approximately 3.5 hours of time is allotted for staff meeting time; this time is broken down in to full faculty planning for common goals, visions, and school wide concerns, grade level time, course level teams to work across all of our school sites, and time for teams and individuals to work towards meeting goals set forth on their personal educator plans (PEPs). This has been the consistent model for the last four years, and is continually evaluated and adjusted by the entire faculty.
