Base Contract

The base contract will cover day-to-day to/from student transportation services following the school calendar for the school year. The contract will also stipulate pick-up and drop-off times and locations, which are subject to change at the district's discretion on an ongoing basis.

The district is seeking bids for up to three (3) routes anticipated to be in operation during the two (2) year contract term. For the 2023 - 2024 school year, the district will likely require, depending on student interest, two (2) routes to be operated starting with the first day of school, August 16th, 2023. These routes will cover specific areas of the Greater Seattle area where our students reside. The exact number and locations of stops per route will be determined on an ongoing basis between the district and the awarded vendor. Any potential or actual changes shall be provided to the awarded vendor/contractor.

Pricing submitted as part of this bid shall list the amount charged per route per school year. Any increases in the amount per route shall be expressly provided in the submission documents. Failure to outline any increases in your submission will result in the district's capping of the maximum amount charged per route at the lowest of the costs per route being charged for the duration of the awarded contract.

Additional Service Needs Contract

In addition to the regular to/from student transportation services that are necessary, Summit Public School: Sierra may require student transportation for extracurricular or off-site activities, such as

student field trips. The awarded vendor shall have the first opportunity to provide a quote for transportation for such activities.
